COVID-19 Group update

Australian update

We are pleased to see booster rates increasing, Covid case numbers stabilising or declining in many of our states and government restrictions easing in a number of states. Government restrictions and recommendations differ state to state so please ensure you check and follow your state government's advice for specific information.

For those who travel to our sites as part of their roles, please ensure you adhere to each site's Covid Safe plan and practices.

If you do test positive to Covid, follow directions as provided by your local health authorities, ensure you inform your supervisor or manager and email the details to HSECovid19@linxccc.com.au.

HOME SAFELY, EVERY DAY

SAFETY

New Zealand update

New Zealand has entered Phase 3 of the Omicron response as daily case numbers are increasing and are expected to rise sharply over the coming weeks.

Key changes include:

- The move to Rapid Antigen Tests (RATs) as the primary form of diagnostic and surveillance testing.
- Isolation requirements of 10 days only for confirmed cases and their household contacts.

To ensure critical supply chains are maintained, the “critical worker exemption scheme” has been introduced. C3 and Pedersen Group form part of this supply chain and this scheme applies to the vast majority of our operational teams. It enables those who are a household contact of a confirmed positive Covid case (and have a negative RAT result prior to each shift) to continue working. This scheme applies to team members who are fully vaccinated and are asymptomatic only.

We will continue to follow established Covid protocols and provide regular updates to our teams.

We have a new sponsorship process at LINX Cargo Care Group!

Our Group and Business Units are open to sponsoring a range of initiatives, causes or organisations. This could include sporting teams, events or community organisations.

Sponsorships are important to our Group as not only do they help us meet business goals – such as retaining and attracting customers and helping build our brand – they also allow us to support the things our people are passionate about, as well as the communities we operate in.

The LINX CCG Sponsorship Process is designed to ensure all sponsorships are aligned with our strategic priorities, comply with our internal policies and any associated legislative requirements, and appropriately promote our brand and/or services.

For a short outline on the process please watch the above video. You can find further information and the Sponsorship Application Form on [Pipeline](#).

A great night at the DCN Awards

Pictured: LINX Cargo Care Group CCO, Chris Simpson, Globelink International Director, Jacqui McCombie and NSW Shadow Transport Minister, Jo Haylen.

The 26th Annual Daily Cargo News Australian Shipping & Maritime Industry Awards was held in person in Sydney in February. LINX Port Services had been named a finalist in the very competitive Supply Chain Innovation and Technology category following the development of their new LINX QCP offering. While we didn't take out the win it was still high praise for the business' efforts.

Additionally, as inaugural sponsors of the Women in Shipping & Maritime Logistics Award, LINX CCG was represented by Group CCO Chris Simpson who had the pleasure of presenting the award to this year's very deserving winner, Globelink International Director, Jacqui McCombie.

LINX helps deliver 100 acts of kindness

Recently we helped Soroptimist International deliver 100 acts of kindness by transporting 100 refurbished push bikes from Griffith to the Port of Melbourne, where they will be shipped to Samoa.

These bikes will go to areas of need, providing women and children better access to health care, education and recreation.

Thank you to all involved for helping this great initiative come to life.

Our people in the Spotlight

We spoke with Autocare Services Processing Operations Manager, Kembla Grange, Jason Belo

How long have you been with Autocare?

I have been with Autocare in various roles for 13 years now. I started my career in the build shed, then moved into a team leader role, SHEQ coordinator, Port Kembla Processing Supervisor until recently moving into my current role as Processing Operations Manager.

What does a typical day at work look like for you?

A typical day for me involves check ins with my supervisors, emails, checking in with my team in the yard to see how operations are going, running reports and working with my supervisors on a plan for the following days operations.

What were you doing prior to joining Autocare?

I was a Shopfitter Detailed Joiner, building and installing kitchens.

What does Home Safely Every Day mean to you?

To me it means to make sure all of my team members get to go home in the same condition as they left to be able to enjoy spending quality time with their families.

What is a fun fact about yourself that many people may not know?

I love being in the ocean, my two girls are involved with surf lifesaving, so I spend most mornings at the swimming pool and most afternoons in the ocean. I'm a volunteer lifeguard and recently decide to take up ocean ski paddling which gives me some time to clear my head after a big day.

What are your favourite TV shows to watch?

I don't really watch too much TV/movies but when I do it is locked on the sports channels.

When you have 30 minutes of free time, how do you pass the time?

My favourite thing to do is spending time on the beach with my family, luckily for me, my wife and children share my love for the beach.

Supporting the Wood, Wine and Roses Festival

Last weekend our C3 team in Portland were pleased to once again be sponsors of the Wood, Wine and Roses Festival in Glenelg Shire (VIC). The festival is one of the Shire's most popular events, with a bunch of family friendly activities on offer.

A few of our people attended the event to showcase some of our log trucks and forwarders and help kids in and out of the forwarder for a closer look. Our stall was a big hit with many festival goers eagerly collecting the water, sunscreen and hats being handed out throughout the hot day.

"After the last two years we have had, it was great to be back out doing something as part of the community" said C3 Australia Forwarder Operator, Rhys Jolly.
